

TAWIP phenix

Care product for pre-coated floorings

■ 4 in 1 ■ Comprehensive functions ■ Easy to use

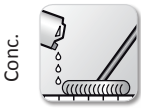

Product Profile

- TAWIP phenix is the first complete solution for the care and cleaning of pre-coated floorings.
- The 4 in 1 conception is appropriate for the development of a satin-shiny film (the initial care) as well as the maintenance cleaning, the reparation/refreshment and the efficient removal of this film which guarantees a perfect appearance and maintenance of the surface.
- Due to this versatility the entire cleaning and care of pre-treated flooring can be limited to only one product and in this way TAWIP phenix saves costs for handling, set-up times and stocks.
- TAWIP phenix underlines the quality of a pre-coated floor by a slight gloss enhancement and protects the top layer from damages and abrasion while caring for the preservation of the surface.

Application & Dosing

Dose in relation to application and degree of soil. Follow below instructions.

Conc.

Intensive cleaning: before care treatment use 3% LINAX extreme. Then apply TAWIP phenix.

10 ml/L

Removal of normal soiling: mop the floor with a clean, wet mop.

500ml/L

Restoration: Wipe the floor with 10ml/L solution. Then apply 50ml/L dilution.

200ml/L

Removal: Wipe surface and leave it 10 min (keep wet). Remove with a wet suction cleaner.

Area of application

- TAWIP phenix is ideally suitable for the application on all elastic floorings (PVC, linoleum, caoutchouc, polyolefin) with a pre-treated covering and also for smooth and slightly structured caoutchouc floorings (without pre-treatment). This product can be applied in conventional cleaning methods

Ingredients:

<5% non-ionic surfactants, soap, perfumes, METHYLISOTHIAZOLINONE, BENZISOTHIAZOLINONE
